

# Columbia Investigations

The Investigators with Integrity

January 28, 2010

To Whom It May Concern:

I am writing to you at the request of Mr. James Walbert in regard to his restraining order due to electronic harassment and related investigations into the matter.

I am the owner of Columbia Investigations, a licensed and bonded private detective agency. My firm has been retained by Mr. Walbert to assist him in investigating his claims of continuing electronic harassment, physical abuse, and intimidation.

Our investigation into the matter is ongoing. However, I am able to state that I have reviewed all available materials relating to Mr. Walbert's claims and find them to be factual and credible.

Mr. Walbert has been evaluated by licensed physicians, clinicians and mental health professionals. Their findings, which Mr. Walbert will provide the court, provide a wealth of information which should assist the court in making its decision.

All mental health professionals consulted in regard to Mr. Walbert have found him to be of sound mind.

All clinicians and physicians consulted by Mr. Walbert have confirmed the presence of RFID implants on his person through copious medical testing, including an MRI, toxicological testing, telemetric scope and frequency testing and more. These professionals in the fields of medicine and electronic harassment have confirmed the presence of physical trauma related to these implants as well as the locations of the implants themselves.

Most notable of these professional assessments of Mr. Walbert are those by William Taylor, a recognized expert in the field of Technical Surveillance and Counter Measures (TSCM), Dr. Hildigard Staninger, industrial toxicologist, and Mr. Walbert's MRI.

These reports show inscrutably that Mr. Walbert has been implanted with devices whose technology allows the perpetrator of implantation to not only monitor Mr. Walbert's location and physiological functions, but to actively interfere with those

physiological functions as well. The perpetrator of implantation of Mr. Walbert may use equipment to interact with the implants within Mr. Walbert's body at any given time of the perpetrator's choosing. The implants may be stimulated to cause a variety of reactions within Mr. Walbert's body, causing involuntary, undesirable and harmful physiological reactions. The damage to Mr. Walbert caused by these implants not only includes that from stimulation of the implants by the perpetrator, but also by the toxic nature of the metallurgical makeup of the implants themselves.

Currently, we are working with Mr. Walbert to arrange the removal of these implants. However, due to the technological and physiological ramifications, we are still searching for qualified medical professionals to perform the removal.

Based on the previously referenced reports and mechanical analysis of the suspected type of implants, it is my professional investigative conclusion that the perpetrator of implantation of Mr. Walbert has been using, and will continue to use, this technology to electronically stalk and harass Mr. Walbert if the judicial system and law enforcement do not intervene.

I, the undersigned individual, do hereby under the penalties of perjury swear that I have written and re-read the contents of this letter and I hereby certify that the statements made therein are factual and accurate to the best of my knowledge.

Respectfully,

A handwritten signature in black ink, appearing to read "Melinda Kidder". The signature is fluid and cursive, with a red horizontal line at the end.

Melinda Kidder, Owner  
Columbia Investigations
